History: This message has been forwarded.

Trish,

Spoke to [Ex. 6 - Personal Privacy] and he's going to be out of town over the next few weeks so he wants us to contact Guy Parrish--the Cabot contractor who can give us access to his well shed [Ex. 6 - Personal Privacy] is fine with PADEP and Cabot taking split samples.

Guy Parrish

Subject: Update on EPA's Efforts in Dimock

Dear Dimock Residents:

On behalf of Trish Taylor, I'm providing you with an update and attached fact sheet about EPA's activities in Dimock, PA. Please continue to address any questions or concerns to Trish and she will be happy to follow up with you when she returns to the office. Thank you.

EPA Update:

Earlier data reviewed by EPA in November 2011 indicated that private well water posed no immediate health risks. We also said that we would continue to review the latest data and keep you informed. EPA has recently received and reviewed hundreds of pages of the latest Cabot data supplied by the residents. While EPA is not in a position to make any conclusions about the data we have in hand because there are gaps, we believe that additional information is needed to better understand the situation in Dimock and respond appropriately. Therefore, EPA is considering next steps including conducting some sampling of well water in the area.

EPA staff plan to be in Dimock beginning today to survey residents to begin filling these information gaps about their drinking water supply and will share next steps when we have more complete information. We will keep you informed of our next steps as soon as possible.

Trish Taylor, Community Involvement Coordinator
Hazardous Site Cleanup Division
